BROTHER OF MRS. McGETTIGAN LOSES LIFE ON BAY

Louis Toland, brother of Mrs. E. T. McGettigan of this city, wife of the secretary-manager of the Chamber of Commerce, lost his life with five other men early Monday morning when a small pleasure launch in which they were crossing Carquinez strait was run down by the Associate Oil tanker Coalinga. Only one member of the party was saved. Up to last night none of the bodies had been recovered.

Toland was an expert gas engine mechanic and made his home in Vallejo, where he was extremely popular. He was 36 years old and unmarried.

WORK OF FILLING CENTER STREET BEGUN

Opening of Thoroughfare Will Afford Another Avenue For Travel Through Heart of City.

One of the most important pieces of work in the way of civic improvements was started yesterday when a force of men with teams began hauling in material to fill Center street, on which the new city hall is located. The material for the fill is being secured at San Carlos from excavations being made in the construction of streets at that place. The work is being done under the supervision of Street Superintendent Dickey and will be carried to completion as rapidly as possible.

The city trustees have been contemplating the improvement of Center street for some time, but have experiencd considerable difficulty in securing the necessary material for the fill.

The opening of Center street will fill a long felt want. It will connect Jefferson and Washington streets with Main street at Phelps, thus affording another avenue for travel through the heart of the city and relieving to a great extent the traffic situation on Broadway and Main streets.

Following the filling in of Center street and the opening of the thoroughfare to travel, the plans include the improvement of the open space on the west side of the city hall near the Robertson place. The water that now flows on this side will be carried over the east channel by means of a large concrete culvert. The low ground will be filled in and a small but attractive park of flowers, plants and trees laid out. Flowers and sloping lawns will adorn the grounds directly around the city hall, creating in all a very beautiful effect and making this one of the most attractive spots in the town.

CONRAD BONTZ DIES WHILE ON VACATION IN NEW MEXICO

Word has just been received announcing the death at Fort Bayard, New Mexico, of Conrad Bontz, a former well-known resident of this city. He had been on a vacation and was thought to be in good health.

Bontz was chief clerk in the United States Army transport service in San Francisco for fifteen years. With his family he resided in the Roosevelt avenue district in this city up to five years ago, when he moved to Palo Alto.

Bontz is survived by a widow and three children. A brother, L. E. Bontz, lives in Sacramento. The deceased was 49 years of age and a native of Illinois.

The funeral was held Tuesday, the interment being in the National Cemetery at the Presidio, San Francisco.

JOS. H. NASH WITHDRAWS AS CANDIDATE FOR SENATOR

Joseph H. Nash's announcement Monday that he had withdrawn as a candidate for State Senator caused considerable surprise among his many friends throughout the county. The popular county clerk had a clear field for the higher office, all other candidates having withdrawn in his favor. Mr. Nash has been studying law for some time and he decided that he would not be able to make the senatorial campaign and continue his law studies. Also his duties as county clerk make it impossible for him to absent himself from his office.

EXCITING BASKET BALL GAME AT GYM TONIGHT

The people of this city will be given an opportunity this evening of witnessing one of the hardest fought basket ball games of the season when the 130 pound team of the Redwood Athletic club meets the 130 pounders of the San Francisco Boys' Club. Neither team has yet suffered defeat and victory for the locals in tonight's struggle will probably result in their being given a chance to play the celebrated Cardinals, representing the Olympic Club of San Francisco and the recognized State championship in the 130 pound class.

MEETING OF R. R. COMMISSION IN THIS CITY NEXT MONDAY

E. T. McGettigan, secretary-manager of the Chamber of Commerce, has arranged with the State Railroad Commission to hold a meeting in this city next Monday afternoon, for the purpose of investigating the question of railroad crossings in Redwood City.

The meeting will be held in the rooms of the Chamber of Commerce at 2 o'clock.

McCARTHY DIVORCE CASE WILL BE RE-OPENED

Judge Buck on Monday set aside the default entered in favor of Mrs Mayzella A. McCarthy of San Mateo against her husband, Dr. Charles F. McCarthy, San Francisco specialist. This order of Judge Buck's permits a re-opening of the case and the filing of Dr. McCarthy's sensational answer and cross-complaint.

After a pleasant visit of several weeks with Mr. and Mrs. E. T. Thompson in this city, Mrs. A. E. Thompson and children have left for their home in San Francisco.

The many friends of Mrs. N. C. Cummings will be glad to hear that she is recovering from her recent illness and has returned from the Red Cross Hospital, in San Mateo.

An enjoyable evening was spent at the home of Mr. and Mrs. J. J. Read on Jefferson street Sunday, when Miss Josie Read entertained a number of friends from this city and Stanford University.

A REMINDER

"Procrastination is the Thief of Time."

What a true saying this is, and yet we find ourselves putting things off day after day that should be attended to immediately, and paying dearly for it in the end. This will apply very gracefully to our sale of

Men's Furnishings

THE SALE STARTED OFF WEDNESDAY WITH A BANG! and the receipts for the day were far beyond expectations, and yet we hardly made an impression on the stock. The closing out of our MEN'S WEAR is only to make more room for our Dry Goods spring and summer lines which are beginning to arrive, so the Gents' Furnishings must go. I would advise all who would likely need anything in this department to take advantage of this sale, as all merchandise is not only going to be higher but scarce, especially if the present conditions continue to exist, so do not be afraid to supply yourself. These are all plums, not a lemon in the basket, and we will still be in business here and make anything good if by chance anything should be otherwise. I thank you. M. J. KNOX.

ONLY ONE REPUBLICAN TICKET

Now that several lists of nominees for delegates to the national conventions have been placed before the electorate for their approval it is seen that but one ticket has the right to be recognized as representative of the Republican party, and that one was chosen in a convention of more than 500 Republicans who were called into a state assembly for that purpose. That convention of 500 delegates, as they may rightfully be called, was held in response to the call issued by the state committee of the Republican party and every county in California sent delegations, ranging in number from two or three to 40 or 50, according to population. That convention named a list of Republicans to represent the Republican party in the Republican national convention and the delegates so named will be the only Republicans recognized as such partisans.

There is only one Republican ticket nominated by the party representatives regularly called into a state convention for that party duty. Another ticket named in a little caucus of politicians closely connected with the state Progressive administration is claiming the Republican party label, but the voters will of course accept as representative of Republican sentiment the ticket named in the state convention.

The state administration led-press and the salaried officials and commissions will be lined up for the opposition ticket and this year will claim to be Republicans. It could hardly be expected that such a delegation would be recognized in the national body if it should get a majority vote, which it certainly cannot with the combined support of the Progressives and the masquerading forces of the state administration.

WANTED—AN ISSUE

The Earl hydro-electric ticket is in a sorry plight. This hand-picked list of candidates without platform or principles who are seeking to misrepresent and mislead the Republicans of California in the national convention in Chicago in June has been thrust into the presidential primary fight by the Great Western Power Company boss without an issue. When Earl is asked whom his candidates represent other than Earl and the special interests for which he is the hired attorney he is strangely silent. Opposed to the Earl ticket are twenty-six representative Republicans selected by a legally constituted convention of more than 500 loyal Republicans who journeyed to San Francisco from all parts of the State. A comparison of the two tickets and the manner of their selection not only accentuates the fact that the Earl hydro-electric ticket is without an honest issue in the campaign but is also without excuse for being on the ballot.

REGISTER AS A REPUBLICAN

This is the last week for registration for the presidential primary. If you are a Republican don't let yourself be hoodwinked into declining to state your party affiliation. If you fail to register as a member of your party you will be disfranchised at the August primary. Saturdey, April 1, is the last day to register for the primary May 2, at which will be selected candidates to the national convention. Don't fail to register.

REGULAR REPUBLICANS UNITED

The following statement has just been issued from the regular Republican headquarters in the Bankers' Investment Bldg., San Francisco:

"Chester H. Rowell, editor and manager of the Fresno Republican, in an editorial in his paper on March 12th in which he frankly admits that the Earl "united" Republican organization is simply a movement of the Progressive party, insists that the Earl personal organization in the present campaign has made a grievous error in announcing itself as the "united" Republican conference. He blandly states that the Earl efforts are for "disharmony" rather than for any attempt to bring about united organization of Republicans.

"Rowell takese issue with his political associates in their piracy by asserting that they are making the same mistake that was made by their fellow Progressive, Daniel A. Ryan, and his associates during the graft prosecution in San Francisco, in the selection of the name regular Republican league. In his editorial Rowell proceeds with his specious logic as follows:

"'We fear that the Earl faction of Republicans is repeating the same error, from the same motive, in calling itself the "united" Republican conference.'

"He goes on to explain that the only hope of the Earl faction is for victory in the Republican party in order to make a home for the Progressives who will be willing to support it. He continues;

"'As between Republicans and Progressives, is it indeed a "united" movement. But as between the factions now in the Republican party, it is, or ought to be, an aggressive and belligerent anti-regular faction, devoted not to harmony with the Old Guard, but to victory over it.

"'There may not be much in a name, but when it is a name that seems to stand for harmony, on the part of a movement whose only excuse for existence is aggressive disharmony, the name sometimes imputes a dangerous half-heartedness. It did no particular harm, in the San Francisco movement of 1907, because the movement so notoriously did not live up to its "regular" name. It is to be hoped that the Progressive Republican faction, likewise, will so far belie its "united" name that nobody will use it.'"

"Rowell, however, does not attempt to justify Earl in placing a hydro-electric ticket before the public as being satisfactory to the rank and file of the Republican party. With the Earl ticket floundering under the burden of reactionariese seeking special privileges for their interests, Rowell does not attempt to prove his charge that the regular Republicans, who are working solely for the preservation of the Republican party, constitute the Old Guard. The regular Republicans insist that they are not a faction but are the Republican party in California."

WESTERN UNION TELEGRAPH COMPANY EXTENDS SERVICE

Usefulness of Telegraphic Money Transfer Service Increased

During the past few years the Western Union Telegraph Company has been in the van of public service corporations in putting out new services to meet the modern business and social demands. The company now announces another innovation for the benefit of its patrons. The Western Union Company annually transferrs by telegraphs an enormous amount of money and heretofore the senders of the money have not been permitted to include in the transfers any communication of a business or personal character to the payee, such information being required to be sent by separate message. Under the new arrangements, however, transfers between points in the United States may include such information and the same will be delivered to the payee at the time the transfer is paid. This surely represents an up-to-date service and one that should appeal to and be of much value to business houses and the public generally. Through it, people will be enabled to transmit money quickly with proper instructions to meet banking obligations, pay insurance policies, guarantee purchases, accompany bids, purchase railroad, steamship and theatre tickets, pay taxes, assessments and bills of all descriptions, make remittances to traveling salesmen and pupils attending distant schools, etc. There is practically no limit to the purposes for which this service is available. The Telegraph Company is to be commended upon the manner in which it is broadening the scope and purposes of its various services in order to better meet the needs of the public.

A HAPPY LOSS

Lose your grouch, you'll never miss it,
Though, at first, it may seem queer
To be just a little decent,
To the people who are near.
But with very little practice,
Sawing wood from day to day,
You can make yourself attractive
With a grin nailed on to stay.

There is little satisfaction,
Nor is life the more complete
If you bite the heads from people
Whom in daily rounds you meet,
And the mussup isn't pleasant
When that little trick you try—
They can never sue for damage
If you smile and pass them by.
You may think it lends distinction
If you jog along the way
With a grouch on exibition
Every moment of the day;
But when friends who see you coming
Make excuse to turn away,
You will find the load is hardly
Worth the freight you have to pay.

Be the little ray of sunshine
To the people that you meet;
Let them feel when you are coming
That it brightens up the street.
It's the only way to travel:
Every smile will be a boost—
And you'll find it worth the trouble
When the chicks come home to roost.

Powell Walters Given a Three Spot

Powell Walters, charged with stealing copper wire from the poles of the Pacific Gas and Electric Company some time ago at Visitacion, was found guilty in the superior court on Tuesday. He was recommended to the mercy of the court. Walters had a prior conviction against him. On Thursday he was sentenced to serve three years in Folsom. The defendant through his attorney, F. A. Reynolds, asked to be sent to San Quentin but the court having sentenced his partner in crime, Fred Miller to that prison, he decided to separate the pals and sent Walters to Folsom.

THE ORIGINAL HANDY MAN

A colonel wanted a man-servant, so he inserted an advertisement in the local weekly. One of the applicants who answered was an Irishman.

"What I want," explained the colonel, "is a useful man—one who can cook, drive a motor, look after a pair of horses, clean boots and windows, feed poultry, milk the cow, and do a little painting and paperhanging."

"Excuse me, sor," said Murphy, "but what kind of soil have ye here?"

"Soil?" snapped the colonel. "What's that got to do with it?"

"Well, I thought if it was clay I might make bricks in me spare time."

PACIFIC GAS AND ELECTRIC COMPANY — PACIFIC COURTEOUS CONTINUOUS SERVICE

DON'T WASTE GAS

The GAS COMPANY has found upon investigation that a number of consumers waste gas unnecessarily. It is our desire to have you use gas freely; however, we do not wish you to waste it.

For instance, many housekeepers are using old-fashioned gas ranges with defective burners and worn-out linings; water heaters of an obsolete type with stopped-up coils and faulty circulation; room heaters or grates that smell badly and do not radiate heat in proper proportion to the gas consumed.

Frequently we find that with a very nominal sum spent for repairing and adjusting, gas bills can be greatly reduced and efficiency greatly increased. In other cases recommend modern gas appliances that have met the approval of eminent gas engineers.

Our inspection and advance will be gladly furnished free of charge.

FOR BRONCHITIS, WHOOPING COUGH, CROUP, COUGHS AND COLDS

Make the Best Remedy at Home—128 Teaspoonsful for 50 cents.

If everything was sold in as liberal and fair a manner as the below named druggists are selling Schiffmann's New Concentrated Expectorant, absolutely no cause for complaint or dissatisfaction could possibly arise from anyone. These druggists say—"Buy a bottle of this remedy and try it for Bronchitis, Whooping Cough, Severe Cough, Croup or any Bronchial Affection, and we will return your money, just the same as we do with Schiffmann's famous Asthmador, if it does not give satisfaction, or if not found the best remedy ever used for any of these complaints." Why not take advantage of this guarantee and try this medicine, and get your money back, rather than buying another purely on the exaggerated claims of its manufacturer or on the strength of testimonials from others and run the chance of getting something worthless and also wasting your money?

In buying this remedy, besides securing an absolute guarantee of its efficiency from these druggists, you also get about eight times as much medicine as you would in buying most any of the old-fashioned, ready-made kinds, which average from 20 to 32 teaspoonsful, because 50c worth makes a whole pint (128 teaspoonsful) when mixed at home with simply one pint of sugar and one-half pint of water. This remedy positively does not contain chloroform, opium, morphine or any other narcotic. It is pleasant to take and children are fond of it. You will be the sole judge, and under this positive guarantee absolutely no risk is run in buying this remedy. Druggists everywhere are authorized to sell it under the same guarantee as Schiffmann's famous Asthmador of "Money Back" if not perfectly satisfactory. R. J. Schiffmann, Proprietor, Saint Paul, Minn. KILMOL SQUIRLGOPHENE

Will Kill 'Em All

In each burrow put one waste ball saturated with Kilmol. After a few minutes, ignite. The deadly fumes instantly reach every nook and cranny of Mr. Squirrel's or Mr. Gopher's burrow. Kilmol gets him every time—poisons as well as asphyxiates. Kilmol costs you less than one cent per burrow, and one application does the business. Any other method requires from two to six times over at a much higher cost. Government, State and County officers use Kilmol and get 100% efficiency. Results absolutely guaranteed or money refunded.

Your local dealer can furnish waste balls better and cheaper than home-made. Ask him about Kilmol, and about new U. S. Government formula of poisoned barley.

HIGH SCHOOL NOTES

This year there are twenty-six boys taking Manual Training. At present the work consists only of cabinet making. Many of the boys are very skillful in this branch and consequently a large amount of first-class work is being done. This term there is a variety of furniture being made, as well as a variety of wood. Oak and genezers, as well as pine and redwood are being used, and satin walnut is used in great abundance. William Boulware has made an excellent writing desk, Louis Beltramo a beautiful wardrobe and Albert Bullivant a fine chiffonier, of this wood. Ralph Talmage has just completed a unique music cabinet of genezers. Besides these, four or five Morris chairs, two davenports, a number of tables, two china-closets, a number of music cabinets and several electric lamps are under construction at present. The boys are making the cushions for their chairs and are doing remarkably well. The interest in the work is continually increasing.—Rockwell.

As the baseball season for high schools is now in full swing, an inter-class series is under way. All classes are represented with the exception of the Seniors who are unfortunate enough not to have the required number of boys in the class for a team. Nevertheless the Juniors, Sophomores and Freshmen will supply enough "pep" and playing ability to keep baseball a leading sport at Sequoia. In a practice game last Wednesday the Sophmores defeated the Freshman in a rather "ragged" game. The Babes lack a first class pitcher which cripples them to a great extent. The score of the game.

	R.	H.
Freshmen	3	3
Sophomores	14	6

In looking over the two teams last week in the Sophomore-Freshmen game the Sophomores have a little edge on the first year men. The pitching staff of the Sophomores, consisting of Moody, Eikerenkotter and McAuliffe, is exceptionally strong. Other promising players of the Sophomores are: Rockwell, outfielder and George Seely, short-stop. Of the Freshmen, Murray and Cross seem to be on a par while Joe Hahir is showing well in the garden.

The student body has not had a chance to see the Juniors in action yet, but they promise to have a formidable aggregation on the field when the gong rings for the series to start.—B. H. Lalande.

"DADDY LONG LEGS" OFFERING OF THE FOLLY CLUB

The Folly Club will present a students' dramatization of "Daddy Long Legs" in the Assembly, April 15th. The cast chosen is as follows:

Judy	Thelma Knox
Jimmie	Jessie Duggan
Mrs. Lippott	Lillian Jacobsen
Sally	Lorraine Dickey
Julia	Josie Read
Sammy	Juanita Parker
Pet	Hazel Lamb
Nan	Camilla Stafford
Billy	Mildred Lamb
Messenger Boy	Dorothy Dearborn
Mr. and Mrs. Semple	Lou Etta Millard and Lillie Gould
Jarvis	Marie McAuliffe

The others of the club will take parts as orphans and college girls.

SCHOLARSHIP MEDAL

The Boosters Club is once more to add a new meaning to the word "boost." Its members are contemplating the offering of a gold medal for the pupil of Sequoia who makes the best scholarship record before the close of this school year. They then intend to make this an annual medal—thereby raising the standard of scholarship in the school, a truly worthy undertaking.

As mentioned in our last issue the Club is offering a tennis cup to the best boy-singles tennis player of the tournament soon to be held.

BIG TYPING TASK

Mr. Finlay, the City Engineer, last week called on the Commercial Department to get out a mass of specifications for his office. Mr. Myers managed the affair and Hazel Lamb, Lorraine Dickey and Florence Woodhams, with the help of Edith Carleton and Alma Haaker did the work, in all 1836 pages of material. Another evidence that the training our people get in the school fits them for actual practical work.

PROF. BASSETT VISITS SEQUOIA

Last Tuesday, Prof. L. E. Bassett was a visitor at Sequoia and at the request of Mr. McCrea, he spoke to the Student Body for some minutes. Among other things Prof. Bassett told of the work he was interested in—that of "bringing' the colleges to the people." Prof. Bassett closed his remarks with two very good short stories whose morals were well applicable to high school people.

JAMES BRIDGEWATER BACK

James Bridgewater, who left Redwood two years ago to live in South San Francisco, is back again at Sequoia. James had the best scholarship record in Sequoia before he left and it is with much pleasure that we welcome him back among us.

INTERCLASS DEBATE

On Friday—March 31st the first of the interclass debates will be held in the Assembly Hall. Lucien O'Connell and Chas. Watson will represent the Sophomore class in opposition to Jessie Duggan and Blanche Ross of the Freshman class on National prohibition. A hotly contested debate is anticipated.

PALO ALTO GIRL WINS CRITICISM CONTEST

Dorothy Nichols of Palo Alto was awarded the five-dollar prize offered by the English Club for the best criticism of "The Great Divide" by a preparatory school student. The winner, who is the daughter of W. H. Nichols, principal of Palo Alto High School, was not long ago awarded first honors in an essay contest on prohibition. She is a freshman in Palo Alto High School.

"What is worth doing at all is worth doing well." Does that apply everywhere else except in the class-room at school? If training is worth getting at school, why not strive after the best? Most of us have a long life time ahead in which we must work, why not spend the years at high school in getting well prepared for that work. We know the world has little mercy on weaklings and those poorly prepared—then, why not get ready now to hold our own? Most of us will have but one chance to get ready and now is the time.—S. P. M.

Although one or two of our men have indicated some willingness to participate in track events, either lack of training facilities or something has seemingly made it impossible for Sequoia to be represented in the League Meet. Would an athletic field solve the problem? Would proper training facilities inspire our boys sufficiently to do something in track work?

Ray Griffin, manager of the Redwood Baseball Club, reports the loss of the field at the Highway and Broadway. The owners are going to cut it up in lots and sell it. This not only means a loss to the baseball team, but also to the Highschool as an athletic field.

SEQUOIA ADVERTISING

Lorraine Dickey and Marie McAuliffe will begin this week to call on the merchants for their aid in getting out our annual. Every one co-operate.

On March 16, The Redwood Athletic Club defeated (basket-ball) the Columbia Park boys, the runners up in the P. A. A. 130-lb division this year. The score was 54-22.

The High School will be represented in the May Carnival Floral Parade this year by a large and attractive float.

BLACK-HAND LETTER MAY LEAD TO TERM IN PRISON

Lost at Gambling Then Threatens Former Employer at Menlo Park

Carlo Carliani, who was arrested at Gilroy two weeks ago for sending a black-hand letter to James L. Flood of Menlo Park, had his preliminary examination in Judge Seely's court last Wednesday. He was held over to appear before the superior court last Wednesday. His bail was fixed in the sum of $5,000. The prisoner will make no fight and will accept with good grace the punishment that will be meted out to him by the superior court. He will plead guilty. Carliani was employed a year ago by Mr. Flood on his place at Menlo Park. He left for Gilroy and there lost heavily in gambling games. From that point he wrote four black-hand letters to Mr. Flood demanding $30,000 to be placed near a brick wall adjoining the Flood residence. In the event that the money would not be forthcoming some member of the Flood family would be killed. Sheriff Sheehan laid a trap for Carliani but did not catch him. However the officer learned of his whereabouts and went at once to Gilroy and arrested him. To Detective De Carli the black-hand man confessed the crime and said he had sent the letters to Mr. Flood for the purpose of securing funds from him. Carliani is quite repentant and is anxious to know what his sentence will be.

He appeared in the superior court Thursday and plead guilty. Carliani will be sentenced this morning.

The main building will be 42x42, surrounded by a wide veranda, and tent platforms will be placed here and there between the redwoods. The new resort is to be called Peek-a-Boo Inn and will be opened for business about May 15. Johansen and Bittencourt believe the completion of the new highway through that region will result in heavy traffic, and a corresponding increase in the number of pleasure-seakers.

R E. Woodhams has started an auto stage service between Redwood City and Pescadero, under the name of the Scenic Auto Stage line. Besides passengers, the stage will carry parcel express. The route of the service passes through La Honda and San Gregorio. The beginning of the service is of particular interest to hunting, fishing and camping parties. As a result of the Forester's whist games, Eric Thompson won first prize—three months' dues, William Lutje won second prize—two months' dues while the consolation prize fell to Earl Bullivant—one month's dues. VISITORS PRAISE WORK OF CHAMBER OF COMMERCE

Out-of-Town Merchants Show Interest In Efforts of Redwood Retailers

Out-of-town business men interested in the work of the Chamber of Commerce to better retail business conditions through organized co-operative effort made Thursday night's meeting of the Retail section of the Chamber of Commerce one of the best that has been held by the local body since the reorganization of the old board of trade six months ago. Among the visitors were President Maxwell of the State Hardware Dealers' Association, Roy Smith, its secretary, Beverly Wall, secretary of the San Mateo-Burlingame Merchants' Association and Messrs. Brown, Wisnom and Bonner. Each was called upon for a few remarks by Chairman D. R. Stafford and they each took occasion to declare that Redwood merchants were on the right track when they got together for the purpose of bettering credit conditions and other matters dealing with retail merchandising.

The secretary was instructed to deny permits to solicit advertising among the merchants to all publications of whatever nature except newspapers.

THE FIRST SKYSCRAPER.

It Was Designed by a Savoy Architect Three Centuries Ago.

Credit for the first skyscraper built in this country is generally conceded to Chicago. It was built in the "loop district" of that city in 1886, from plans by Holabird & Roche. The first example of lofty building in New York city was the structure at 50 Broadway, designed by Bradford Lee Gilbert in 1888. A few years later both these wonders became insignificant and practically forgotten because they were so greatly outdone by succeeding skyscrapers. But these were not the initial efforts, for a skyscraper was designed nearly three centuries ago, many generations before the discovery of the steel cage system of this day.

Jacques Perret, an architect of Chambery, Savoy, is the accredited author of plans for an eleven story building, 361 feet in height, which must have had twice the space between floors, for today eleven stories are crowded within a height of 150 feet. Perret's building was planned to be 166 feet long and 140 feet wide, with supporting walls twelve feet thick at the base.

While never executed, the project of Perret in many ways was a remarkable prophetic vision. Evidently it was intended for dwelling purposes, for in describing the project he wrote, "This great and excellent edifice can accommodate comfortably 500 people."—New York Post.

INDELIBLE MARKING.

Advantages of Using Just Ordinary Blueprint Solution.

There are many occasions upon which it is necessary to mark linen or wearing apparel indelibly with one's name and address, yet the ink sold for this purpose is not always convenient to use or attractive in appearance, says the American Boy.

A very good substitute is the ordinary blueprint powder, sold by any photographic dealer, a thick solution being made and used just as the ordinary ink would be. Instead of fixing this by the use of a hot iron, it is made permanent simply by washing in several changes of cold water. When thoroughly fixed the writing will appear in a very pretty shade of blue. Should you prefer, a rubber stamp may be used instead of a pen. In this case a little glycerine should be mixed with the solution, which should be spread upon a clean cloth or blotter. This is then used as an inking pad for the stamp.

Aside from its convenience marking with blue print solution has the advantage that traces of the writing or any stains caused by it may be removed if desired by the application of a solution of tannin.
